Onshore Wind

Our Onshore Wind insurance solution provides construction coverage that protects the owner, manufacturer, or constructer's onshore wind assets in the event of unexpected accidents during the construction period. Cover can be extended to include re-imbursement of lost future income as a result of such damage.

Our operation coverage protects the owner / operators' onshore wind assets in the event of unexpected accidents during operation. Cover can be extended to include re-imbursement of lost income as a result of such damage.

Cyber cover can be included in conjunction with this policy.
