Carbon Capture

To protect the assets of the owner, manufacturer, or constructor, our Carbon Capture and Storage insurance solution covers unexpected accidents during the construction period. Cover can be extended to include reimbursement of lost future income resulting from such damage.

Operational coverage protects the owner's or operator's assets in case of unexpected accidents during operation. Carbon Capture operational cover can also be extended to include reimbursement of lost income resulting from such damage.

- Construction All Risk (CAR) and Operational All Risk (OAR) policy wordings of local market standard
- Variable limits and deductibles
- Global appetite
- Experienced, internal claims team
- Appetite for primary, DIC/DIL, and XOL placements
- Lead and follow positions both considered
